DESIGN ON PURPOSE

UNDER ONE UMBRELLA

Our craftsmanship  
casts a long shadow.  
Born more than 125  
years ago, Frankford  
Umbrellas stays  
committed to the idea  
that true luxury is in the  
things that last.

# SHADE

A close-up, low-angle shot of an umbrella's metal frame and shaft. The shaft is dark grey or black, and the frame consists of several curved ribs. A silver-colored metal band with the brand name 'FRANKFORD' is visible on the shaft. The background is a vibrant, solid red color. The lighting creates strong highlights and shadows, emphasizing the metallic texture and the structural details of the umbrella.

**without a shadow  
of a doubt.**

# AND E

Durability is the truest form of sustainability. Precision engineering, marine-grade materials, and meticulous construction ensure our umbrellas last season after season, through wind, salt, rain, and sun.
