FW: ASH WOOD / POINTED BOTTOM
FAP: ALUMINUM / POINTED BOTTOM

Umbrella clearance dimensions are measured while on a solid surface or mounted in a base. Beach umbrellas are meant to be anchored in the sand, and depending on the depth planted, this dimension will change. All dimensions have a +/-5" tolerance based on multiple variables; pin placement height, crank tautness and fabric weight.

01: VALANCE/NO VENT

02: VALANCE/VENT

03: NO VALANCE/VENT

FRAME FINISHES

Place the pointed bottom pole at least 12"-18" into the sand. Pack the sand around the pole for maximum stability.

FEATURES

The industry standard in concession grade beach umbrellas.

Choose from a wide variety of 9 oz. Marine Grade Solution Dyed Acrylic Fabrics

Superior quality fiberglass ribs for maximum flexibility and wind resistance.

Stainless steel ledge provides a smooth, easy open. **(Ash Wood Pole)**

The "EZ-Up" spring activated steel ledge provides a smooth, easy open. **(Aluminum Pole)**

The 1.375" diameter solid ash wood center pole is a long grain wood providing flexibility, strength and durability in the coastal salt air atmosphere.

Light, durable and built to withstand the rigors of daily rental, or the casual beach goer.

Reinforced four-layer pockets prevent fabric from tearing.

Maintenance free stainless steel hardware.
